Reserve Organization of America

Special Interest Groups/Affinity Groups

The Talent Development Committee had a lengthy discussion about this during our meeting on 18 August 2026.

The Special Interest Groups/Affinity Groups can certainly exist within ROA and are a much better idea than creating a special interest Department or Chapter. Creating these only takes someone that is interested in running the group.

The group can be listed on the ROA website with the point of contact for the group. This can be set up much like the Department and Chapter page which would list all the special interest groups that we have as well as a document like this that says how to create the group.

Potential groups:

- Legal
- Family Support special interest group
- Medical
- Engineers
- Logistics

Interested Departments/Chapters/Members should contact roainfo@roa.org if interested.
